

News release No. 10 - Ventilation Units Study, 29 September 2016

Final report of Ventilation Units study now available

The final report of the Ventilation Units Study is now available at the [documents section](#) of the webpage ventilationunits.eu. Concerning the [Draft Commission Communication](#) and [Final draft FAQ](#), the versions published at ventilationunits.eu on December 21st 2015 are the valid ones for the time being, with the only exception of chapter 5 of the Draft Commission Communication (*Calculation and measurement of SFP_{int}, internal pressure and internal fan efficiency*). An editorially revised version of this chapter (a few improvements in one figure) has been published at:

<http://www.teknologisk.dk/ydelser/publikation-transitional-method-for-determination-of-internal-specific-fan-power-of-ventilation-units-sfpint/37051>

The final versions of the [Draft Commission Communication](#) and [Final draft FAQ](#) are to be published at the Commissions webpage over the next weeks – the technical content of these documents will remain almost unchanged (mainly editorial changes):

http://ec.europa.eu/growth/industry/sustainability/ecodesign/product-groups_en under the section 'Lot 6 – Ventilation units'

The project is concluded. For any question/additional information, please contact GROW-ECODESIGN@ec.europa.eu, indicating 'Lot 6 – ventilation units' in the subject of your email.

Best regards,

The Project Team
