

Draft Agenda: First Stakeholder Meeting for Ventilation Units Study, 15 June 2015, Brussels, Belgium

Objective: *Two stakeholder meetings are foreseen within the Technical Assistance Study for the Ventilation Units Product Group according to the project plan, see www.ventilationunits.eu. At the first stakeholder meeting, the overall focus will be on the scope of Regulation 1253/2014 and Delegated Regulation 1254/2014, mainly definitions of unidirectional ventilation units (products like roof fans etc.) and on the draft transitional methods to determine the internal specific fan power (SFP_{int}) for non-residential ventilation units (NRVUs). In the afternoon, some clarification on articles of the regulation will be given, and the questions from stakeholders received so far will be summarised. However, the 'Questions and answers'-document planned is not due until October 2015. The main topic of the second stakeholder meeting will be this 'Questions and answers'-document.*

Date and time: 15 June 2015, 10:00 to 16:30 (registration 9:30)

Location: **Centre Albert Borschette (CCAB), Room AB-2A - rue Froissart 36, 1040 Brussels**
